THURSDAY, NOVEMBER 29TH, 1956

8:00 A.M. Judging of Polled Shorthorn Breeding Classes

STANDARD GUARANTEE AMERICAN SHORTHORN BREEDERS ASSOCIATION

1. Proper care must be given by purchaser to protect breeding qual-

ities and health of guaranteed animals.

2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.

3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly

reported to the seller.

4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.

5. All animals catalogued have been tested for T. B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements

will be made covering animals not clear from vaccination.

6. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam, as well as service date.

7. Shipment will be made as soon as possible after the close of the sale, but at purchaser's risk of loss or injury after animal is bid off. Where cattle are sold at private treaty the above terms should apply as

well as for sale at auction.

All prospective buyers should check health requirements of their states. As a safeguard to prospective buyers, every animal has successfully passed a clean abortion blood test within 30 days prior to the sale, or will have Certificates of Bangs Calfhood Vaccination, and those that are not from Accredited herds have passed a clean Tuberculin test within the same period. Health certificates will be provided with each lot sold.

Parade of Sale Cattle - and Show - to be held in International

Arena - Sunday, November 25th, 1956 - 9:00 A.M.

JUDGE: James Biggar, Castle Douglas, Scotland

SHIPPING ARRANGEMENTS: It is the obligation of the consignors and this Association to see that all cattle are properly loaded on cars or trucks as directed by the buyers for immediate shipment. Cattle will be at buyer's risk as soon as bid off, but every precaution will be taken to see that animals arrive in sound and healthy condition.

BE SURE TO LEAVE DEFINITE SHIPPING INSTRUCTIONS WITH THE SALE CLERK

LIABILITY: Although every possible precaution will be exercised to protect the safety and comfort of guests of the show and sale, neither this Association, nor its representatives, nor the auctioneer or clerks, can assume any liability for accidents.

TERMS: The terms of the sale are cash unless other arrangements are made in advance with the consignor from whom you purchase. Settlements are to be made with the clerk of the sale immediately at the conclusion of the auction.

INSURANCE: Coverage may be secured effective at the time of sale.

GUARANTEE: All animals sold in this sale will be backed by the Standard Guarantee endorsed by the American Shorthorn Breeders' Association, which is printed in this catalog.

AUCTIONEER: C. D. Swaffar, Tulsa, Oklahoma.

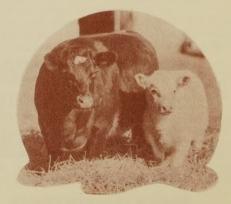

HEADQUARTERS: Conrad Hilton Hotel in downtown Chicago. Write direct for accommodations. Be sure to mention this Association.

Valley View Sensation x2361070 Red. Fred Blomstrom & Sons Princess Ruby 3d x1943227

Linebred to one of the greatest females of the breed, Red Oak Seraphina 16th. He also has an Edellyn Royal Leader cross. This bull was purchased in the Congress this spring to mate to several outstanding horned females. He has developed well in the meantime in spite of heavy service. We believe he will be a 100% dehorner as well as a real sire of outstanding individuals.

RAY & GERALD CLODFELTER MALE ROTHES GRADUATE x2823-374 L-T 13

Lynnwood Royal x2361338 Red. Lynnwood Farm Lynnwood Queen 5th x2391691 Roan, Lynnwood Farm

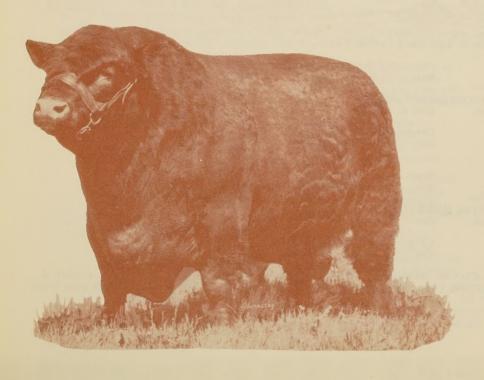

ROTHES GRADUATE x - Is an exceptionally deep-bodied, heavy-boned, deep-quartered bull that has been in our show herd for two years. He has been used in our herd this fall and is a good breeder. In 1955, he was first at Indiana and Ohio and second at the International. This year he has consistently been at the top, including Senior Champion at the Illinois and Indiana State Fairs. His pedigree should be studied carefully.

Investing in an outstanding purebred Polled Shorthorn bull is the best

way to progress in the beef cattle business.

In character, breed type, smoothness from end to end, wrapped in rich coat and scaling 1925 pounds in work condition, this Polled Shorthorn bull presents pictorially a model of the modern proved beef sire. He was often a champion in polled and horned competition and has sired champions. The clean poll, broad forehead, docile eye, large and clear muzzle, strong jaw, short and thick neck, with masculine development of crest, brisket and muscular forearm and over-all width and depth are featured impressively. He has proven his ability as a sire - and represents the modern type Polled Shorthorn breeding bull.

1955 International

Grand
Champion
Bull

CREEKLAND LANCER, sired by Louada Developer, was the Junior and Grand Champion Polled Shorthorn bull of the 1955 International Live Stock Show in Chicago.

Masculine-headed with a great muzzle, burly neck, uniform in his width and depth, he displayed all the requirements needed in a herd bull. In addition, he possessed excellent bone and substance. He was bred by Creekland Farms, Clinton, South Carolina and purchased as a calf by C. B. Teegardin & Sons, Ashville, Ohio, who fitted and exhibited him at the International. He was undefeated wherever shown in 1955.

TPS CORONET COMMANDER 11TH x - Sired by the \$20,000 International Grand Champion now owned by Avenel Farms, Bethesda, Maryland. A linebred Killearn Max Juggler. His dam and grandam are two of the best producing cows in our herd. His dam is a half sister to the 1953 International Grand Champion female. He is bred to sire thick, well-balanced, smooth cattle.

Polled Shorthorn Sale

SUPER-EFFICIENT BEEF PRODUCTION

BETTER BULLS . . . FOR GREATER PROGRESS

Bulls represent the goal of purebred production, hence the intense rivalry among top breeding establishments in the bull group classes at leading shows. The final purpose of purebred cattle breeding is to provide germ plasma for increasing breed potency and for improving commercial production. The test, then, of herd accomplishment, is in the recognized uniformly high rating of the bulls that are used and that are produced for replacement and for distribution.

Those bulls that have enhanced most the reputation of their owners have been selected on the basis of their intrinsic merit. They have been bought by sound-thinking business breeders who know the growing and marketing phases of purebred and commercial production.

Such bulls have come from thick-fleshing, heavy-carcassed ancestry and they demonstrated by their individual inheritance the potence of their breeding. Right ancestry is a must . . . it is seldom indeed that the outstanding

animals of any breed come from nondescript ancestors.

There is no limit to the usefulness of a truly great bull, especially if he is backed by ancestors that are known to be of the best type and character. The right bull can improve a herd almost unbelievably while a succession of improving bulls mated with good females can make the herd famous in a comparatively short time.

OAKWOOD FASCINATOR x - Is a solid red built with a sire's head, short legs and a full quarter. He is out of a thick, red Lynnwood bred cow by Fascinator, a well-known sire of good breeding females. He should prove an excellent dehorner. Accredited T B and Bangs Certified Herd.

POLLED SHORTHORNS . . . SOLID FOUNDATIONS FOR SECURITY

The herd which achieves distinction consists of the best bull that money can buy and good females which can enhance that bull's value with each

succeeding crop of calves.

Those who study their costs in raising heifers are convinced that it pays to raise only the good ones. It takes just as much feed, just as much time, just as much barn and pasture room to raise poor ones as it does cows like those portrayed that are bred right . . . but there is a vast difference in the check when it's selling time for either the calves or their dams. Select your foundation females and herd sire where the quality is high and the animals popularly bred!

The progress of a breed is determined by the actual improvement of its animals. Constant improvement in leading Polled Shorthorn herds has been made possible through the careful selection of modern type breeding animals. The uniformity developed through this method makes the task of breeding.

Polled Shorthorns a much more pleasant one. Their efficiency in converting roughages into beef, their greater weight for age, fast-gaining ability, gentle dispositions and hornless character, make them adaptable to all conditions under which beef cattle are produced

1955 International

Grand Champion Female

QUEEN OF HEARTS 18TH, by Coronet Max Juggler 18th, Senior and Grand Champion Polled Shorthorn female of the 1955 International Live Stock Show.

This undefeated Senior Yearling is a great-headed, thick, squarely-made female, true in her underpinning and displays the characteristics sought in brood cow prospects. She was one of the truly great females to win the International Championship.

She was bred and exhibited by Lewis W.Thieman, Concordia, Mo., and sold for \$8,000. - a record Polled Shorthorn female price - to be exported to Scotland, where she will become a part of the Polled Shorthorn

foundation in the famous Bapton Herd.

to pass along the improvement.

Polled Shorthorns are an all-American product, developed by thinking breeders because of popular demand with an eye to what the future cattleman will find the most profitable. Keep pace with this growing demand. Give practical stockmen what they are asking for. Breed Polled Shorthorns . . . the modern type of beef production. The growing demand assures an excellent market for your surplus stock.

Polled Shorthorns are tops in weight-for-age, gentleness, quality, modern type and their ability to utilize farm-grown roughages efficiently is unexcelled. Combine this with the fertilizer which they give back

to the land and you have the ideal plan for soil conservation.

Today's uniformity of leading Polled Shorthorn herds represents a significant achievement in animal breeding. The scenes taken on a few of the leading Polled Shorthorn farms symbolize this important measure of success in breed development. The uniformity and excellence in type and quality portrayed give convincing evidence of the constructive nature of operations on hundreds of American farms today. Aren't these the kind of Polled Shorthorns you would like to own?

PRIAM ROSEWOOD LADY 2D x - Has a good head and will make a grand brood cow. Her sire produced the first, second, and fourth prize steers for Iowa State College at the 1955 International, as well as the first prize Group of Three Steers. Her dam also produced Priam Royal Leader that went to Australia at a long price.

Polled Shorthorn breeders, by incorporating into their animals greater concentration of quality, more uniformity, increased usefulness and a closer adherence to the modern beef type, have created a demand that has brought the cattlemen of the world to our doors.

Since Polled Shorthorns were developed and improved in America, this is their original source of supply. This foreign trade, combined with an ever-increasing demand at home, creates a ready market for the good surplus animals of every Polled Shorthorn breeder.

With the ever-expanding promise of their use in farm and range herds for the purpose of engendering earlier maturity, heavier market weights and at the same time breed horns off calves . . . and with the clear prospect of continued strong export demand for seed-stock . . . Polled Shorthorns have the greatest future of any other breed of beef cattle in America today.

An investment in modern Polled Shorthorns represents the best way to progress in the beef cattle business. They offer dependability, year after year . . . converting roughages and other farm produce into profit more efficiently than any other cattle. They are unexcellend in ability for fast gains, weight-for-age, gentleness and smooth fleshing.

They have the MODERN POLLED HEAD and they combine ease of handling with profitable production methods.

LYNNWOOD BUTTERFLY A 4TH x - Is a Junior Heifer Calf out of our 1956 show herd. Her mother is one of the best cows in our herd and was second prize Junior Heifer calf in the 1950 National Shorthorn Show. Her grandam was Grand Champion of the 1947 Indiana State Fair. This is the Bailey Butterfly family that has been noted for the production of the top Polled Shorthorns. Pretested clean and CALFHOOD VACCINATED.

A Study in Polled Shorthorn Type

These Polled Shorthorn females present a study in breed type which may well guide those who are building herd foundations. They show a striking balance of superior depth, width, thickness, constitution, carcass pattern, strong bone, quality and feminine character.

The heifers represent second and fourth generation breeding by one of America's internationally known Polled Shorthorn breed builders and im-

provers.

This illustration, carefully noted, can supply the less experienced with some basis upon which to fix their ideals and by which to interpret show ring and sale happenings.

UNEXCELLED MOTHERS

Every breeder likes his cattle with good, even dispositions, gentle, with big calves and long lactation periods. Polled Shorthorn cows fill that bill perfectly. The matrons pictured show great placidity of disposition, which added to the ability to produce abundant milk, make Polled Shorthorn females such excellent mothers.

Great weight for age depends not only on inherited tendencies, but on plenty of mother's milk from the day the calves are born until they are weaned Because Polled Shorthorns have the advantage of both of these qualities they have greater weight-for-age than any other breed. The abundant milk of the Polled Shorthorn cows produces growthier, healthier and more profitable calves.
